EXPERIENCE & PROJECTS

OJTGo – Inclusive Job Search Platform for Interns (2025)

Role: Web Developer & UI/UX

- Managed platform content to ensure accuracy across applicant and employer sections.
- Enhanced usability by optimizing layouts and streamlining user flows.
- Collaborated with team members to address user feedback and provide basic support.
- Maintained documentation and coordinated updates to improve platform clarity.

Chains2Chances – Employment Platform for Persons Deprived of Liberty (PDLs)

Role: Front-End & UI/UX

- Optimized front-end layouts and content presentation for a socially driven employment platform.
- Improved accessibility, clarity, and user-friendly navigation across devices.
- Assisted in aligning digital content with the platform's advocacy and reintegration mission.

Personal Portfolio Website (2024–2025)

Role: Web Development

- Built and maintained a personal portfolio website to showcase projects and skills.
- Managed content updates, layout consistency, and ensured responsive design.
- Demonstrated independent management of a web-based platform.

ERIS – Emergency Response and Information System (Capstone Project, 2025)

Role: Documentation, UI/UX & Digital Coordination

- Organized system information, reporting forms, and user-facing content.
- Streamlined digital workflows to improve usability and reduce response times.
- Coordinated documentation and testing support with team members.

ADDITIONAL EXPERIENCE RELEVANT TO VA WORK

- Email communication with team members and stakeholders
- Online research for technical and non-technical topics
- Data organization and task tracking using digital tools
- Experience working in structured, deadline-driven environments
